

Dear students,

Massasoit science faculty would like to provide better advising and mentoring to students interested in transferring to a four-year school and majoring in science. We understand that the transfer process can be overwhelming. To make this transition a smoother one, we will be hosting events to provide you with more information regarding various issues transfer students may encounter. A great way to meet faculty mentors and other students in the same position would be to attend the events listed below.

Please fill out your contact information below, tear off the bottom portion, and give it your instructor if you are interested in any of these upcoming events and would like to get reminder emails with dates, times and locations. Even if you do not plan to transfer right now it is always a good idea to keep your options open.

Upcoming Events

February 22 nd (S-538) 12:00-1:00 PM	Boston University Seminar	Connie Philips, director of the Biomedical Laboratory & Clinical Sciences CityLab Academy at Boston University, will discuss opportunities for students interested in getting a certificate or degree in biotechnology or biomedical science.
March 3 rd (S-538) 12:00-1:00 PM	Robert Noyce Teaching Scholarship Seminar	Kim Welty, from UMass Dartmouth will discuss the Robert Noyce Teaching Scholarship Program funded by NSF that seeks to recruit math and science undergraduates to become middle and high-school math and science teachers in local, high-need school districts.
April 5th (S-535) 12:00-1:00 PM	Group Advising	Science faculty will answer scheduling questions before registration. Groups may also discuss transferring issues and career exploration in the sciences.
April 28th (S-538) 12:00-1:00 PM	Career Seminar	Seminar by Karl Kuban, a Professor of Pediatrics and Neurology at Boston University and Chief of the Division of Pediatric Neurology at Boston Medical Center. He will discuss his career path and what his job is like on a day to day basis.

*Dates and times may change so pay attention to emails and postings in the Science Building.

Fill out the bottom portion, tear it off, and leave with your instructor.
